**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Torrente on 3/29/05.

Claims 1, 7, and 9, line 1, replace the phrase "An EDR direction" with the phrase -An effective dimension reduction (EDR) direction-.

Claim 10, line 1, replace the phrase "an EDR direction" with the phrase -an effective dimension reduction (EDR) direction-.

Claim 6, line 3, replace "standarized" with -standardized-.

*Allowable Subject Matter*

Claims 1-10 are allowed.

Claims 1-10 are allowed over the prior art of record, none of the prior art whether together singularly or in combination to teach the claimed combination as recited. The closest reference "High Dimensional Data Analysis Via the SIR/PHD Approach" by Li does not teach or suggest the improvement of the instant application comprises the step of calculating the difference between the two mean vectors to estimate an effective dimension reduction (EDR) direction in a single index model, instead Li discloses using the inverse matrix to find the largest eigenvectors in determining the EDR direction.

Art Unit: 2863

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
